BUREAU OF PLANT INDUSTRY
Horticultural Crops and Diseases

We take this opportunity to thank our customers for their kind patronage and letters of commendation of our stock and treatment. We guarantee all stock true to name, healthy, and to grow if cared for on arrival and after planting. We will cheerfully replace or refund on any that prove otherwise. Notify us if anything is unsatisfactory when received, and we will be only too glad to adjust matters to your satisfaction.

Our aim is to list only the most meritorious varieties. A general idea of their worth may be gleaned from the ratings given. We grow many other varieties, some in insufficient quantities to list, others held for further testing. Your problems are our problems, and we welcome letters of inquiry as to growing or selection,

DAHLIAS

Ratings on dahlias are our own, based on results obtained in our gardens. Plants are one-half the price of tubers, and rooted cuttings are two-fifths the price of tubers, or four-fifths the price of plants. Our rooted cuttings are really small plants, shipped with soil removed. We consider rooted cuttings superior to large plants, unless the plant had been shifted to a large pot at an early age. Directions for their care sent with all rooted cutting orders.

Unless otherwise ordered, rooted cuttings will be shipped about May 1st, tubers May 10th, plants May 25th.

Orders for less than \$1.00, add 10c for postage. Plants sent more than 500 miles, add 25c for special handling postage.

We recommend spraying at least once a week with Red Arrow.

Varieties marked with a star (*) subject to a discount of 50% on orders of \$3.50 or more catalogue value, \$1.75 net value.
